GOOD LUCK GARDENS PARADISE, PA.

....ครูปนี้ของกรุง FOR HAPPY MIND AND HEALTHY BODY, CULTIVATE A GARDEN.

The ancient proverb has it, "He who chops his own firewood, hath it warm him TWICE," and in equal measure, the man or woman who plants and tends a garden has DOUBLE joy from it—the joy of seeing things grow under a skillful hand; and the joy of the results in beauty. or utility.

Once AGAIN, in this catalog, we offer the "foundation for happy gardens"—viz., seed-fertility which is so necessary to success with vegetables and flowers. This quality is not achieved by chance, but comes through endless watchfulness and thorough knowledge coupled with untiring patience and industry. We so value the name of the GOOD LUCK GARDENS that we would not knowingly put out a single seed which was below our standard of "big, healthy and bountiful crops".

And as is usual with Good Luck Gardens Catalog, this year we introduce many novelties and unusual things. Our patrons have gardens which not only are admired but envied for their originality and "differentness". As always before, this current catalog is an interesting blend of the staple and the unusual.

May we call to your attention the following curious and valuable offerings?

Gentleman: —The day after I planted the flower seeds in May the memorable 80 mile hurricane came this way. It did great damage, the seeds were blown every which way. Of course there was nothing to do but wait and see how and where they would eome up. Even the metal labels were uprooted so when the plants were ready to be transplanted it was a good deal of guess work. With the result some of them were high where the low should have been and vica versa. The flowers were marvelous in size and color. Then came the four days in August of drenehing rain and the garden was beaten flat. The following week they were more beautiful than ever. My garden eovered 1-8 of an aere with bird bath in the eenter of colorful petunias, the bowl I painted sky blue.
